HR services and communications made easy
Sitrion ONE is an award-winning employee app that unifies HR processes, approvals, notifications, and alerts into one efficient stream. Employees can quickly take action on HR services and get timely communications directly on their mobile devices. Managers can give approvals quickly without having to navigate to multiple systems. This streamlined experience enables all your employees to be more engaged, informed, and productive at work.

Benefits

For employees & managers:

- Increase engagement and alignment
- Simplify the employee work experience
- Reach all desk, non-desk, and field workers
- Streamline time-consuming approvals for managers

For your HR team:

- Reduces time-consuming administrative work
- Saves department costs and HR call centers
- Get more done with fewer resources
- Focus on more strategic priorities

Enable common HR services for all employees

- Vacation requests & expense submissions
- Time-off and PO approvals
- Personal data updates
- Paystub notifications

Simplify HR communications

- New policies, certifications, training courses
- Benefits and performance communications
- New hire onboarding
- Personal data confirmation

Instill two-way dialogues for better engagement

- Conduct surveys, polls, idea campaigns
- Enable employees to ask questions, offer ideas
- Receive immediate feedback and gather results
- Measure engagement and efficiency increases

Easy to deploy - get up and running in days

- Out-of-the-box HR use cases
- Standard connections to SAP, Oracle, Office365, SharePoint, Salesforce
